Introducing: America's First Hydronic (FHW) Heating <u>Appliance!</u>

www.BoilersOnDemand.com

High-Mass Neo-Gravity Heating "Emulating Nature"

Our Delta-T ECM Appliance:

- 1. The Premium All-American Product
- 2. Technological Simplicity that will outperform <u>ANY</u> "Built-In-Place" Hydronic (FHW) Heating System
- 3. Uses far fewer Materials & Space
- 4. Flexible, Modular Construction
- 5. Installation in <u>Hours vs. Days</u> using <u>Basic</u> Trade Assembly Skills
- 6. Heavy Duty Cast-iron, Steel, Brass and Bronze Construction guarantee an extended service life. (30+ yrs?)
- 7. Superior Chemical (Water Quality) Tolerance vs. <u>any other materials</u>.
- 8. Simplified System Maintenance (Uses Standard Trade Components)
- 9. Multi-Fuel <u>Interchangeable</u> Firing! — Oil or Gases (Natural & Propane)

Delta-T ECM Performance:

- 1. Lowered, Precise Temp. Control for Optimized Heating Efficiencies.
- 2. Reduces Distribution Energy 85%+.
- 3. Radiation Temperature Re-Profiling For Fuel Reductions of up to 15%.

<u>— Boiler + Distribution + Radiation = Hot Water (Hydronic) Heating —</u>

The Gravity Hot Water Heating System - Up to 1920

- 1. Simple, Durable Construction: Larger Cast-Iron Boiler & Radiation with Iron/Steel Piping.
- 2. Natural Gravity Convection: No Distribution Energy Required (similarly with Steam).
- 3. Dynamic Energy Utilization: Vary the Fire (Wood/Coal, etc.) to directly control Heating
 - A. Solid Fuel Firing (Wood, Coal or other) required No Electrical Controls.
 - B. Powered Firing (Gas or Oil Burners) required a Thermostat & Limit Switch (as Steam).
- 4. The Limitations of Gravity Convection Heating
 - A. Installation Costs due to Materials and Skill Level Requirements.
 - B. Single Zone (Whole House) Heating with Limited Individual Radiator Adjustments.

The Powered Hydronic Heating System - 1920 to Date

- 1. The Electrical Circulator (Pump) instantly revolutionized Central Hydronic Heating.
- 2. Boiler, Piping and Radiation Sizes reduced Installation Costs and Increased Flexibility.
- 3. Multi-Zone Heating, Domestic Hot Water and Intelligent Thermostats are now The Norm.
- 4. Increasing Fuel Costs are driving sophisticated Combustion/Control Systems—and Costs!

The New Hydronic Distribution Revolution! - Delta-T ECM Circulation

- 1. <u>Again</u> Hydronic Distribution (Circulation) is revolutionizing the Hot Water Heating System.
 - A. The ΔT ECM Circulator maintains Ideal System Delivery Rate & Water Temperature.
 - B. It is like "Putting an 'Automatic Transmission' on a Boiler™", to use Our Slogan.
 - C. Distribution Energy is reduced by 85% & Fuel Usage by up to 15% (or more).
- 2. Contemporary Heating System Installations totally ignore Heating Distribution Efficiency!
 - A. Only Boiler AFUE Rating is considered in defining Heating System Performance.
 - B. Excessive Distribution Piping/Control Practice we call "The Plumber's Playground".
 - C. Current Hydronic Heating Systems are typically overly-built and under-performing.

Our "Neo-Gravity Hydronic Heating Appliance™"

1. Integrating Natural Gravity Heating with ΔT ECM Technology equates a <u>"Green" Appliance</u>. A. Near-Boiler Piping and ΔT ECM Distribution Design optimize Gravity Convection.

B. Our High-Mass ΔT ECM Appliance runs at more efficient, lower system temperatures.

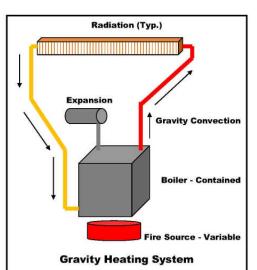

C. A Modular-Construction, Design-for-Manufacture Product provides unequaled value.

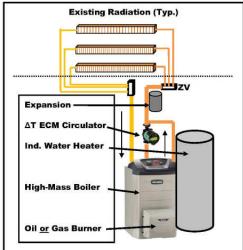

D. High-Mass Boiler with Multi-Fuel (Oil, NG or LP) Capability - Change the Burner, not the System!

2. Appliance Features & Performance based on over twenty (20) system-years of our Beta-Site Installations.

A. All systems use 8-13 Watts of circulation power - 1/3 to 1/2 of the Manufacturer's Expectation! B. Full Cast-Iron/Steel/Brass/Bronze Construction. Over 30 Year Life with no water condition issues? C. Selective Fail-Mode System Heating Continuity w/ Prioritized Indirect Water Heater Operation. D. and all with NO SYSTEM-RELATED SERVICE CALLS TO DATE!

SIMPLE, DURABLE, EFFICIENT HYDRONIC (FHW) HEATING - PERIOD!

Neo-Gravity Heating System

2020 Winter Special A Residential 3-Zone Heating + 45 Gal. IWH Delta-T ECM System As pictured, installed in NH (Oil only) - 1 Unit \$7,775 Without IWH, Only \$6,175 (Subject to Site Pre-Qualification)
